At Mount St. Mary Academy, we strive to provide an outstanding education and to develop well-rounded, confident young women. The complete high school experience includes the opportunity to participate in extracurricular activities. Sports are one option. Some benefits of sports include increased self-confidence, perseverance, teamwork, and physical fitness. Mount St. Mary is in the highest conference in the state, and we compete against the largest schools.

While the Catholic grade schools offer sports such as basketball, volleyball, soccer, and cross-country, there are a few sports that we offer at Mount St. Mary that are not available in grade school. Parents and grade school students must look for programs outside of school if they want to participate in these other sports. Often, parents may not know what other sports are available or where to sign up for them. We are trying to build a competitive softball program, and we feel that there are very few girls who enter MSM who have had softball experience. We understand that some girls who would otherwise attend MSM, choose to go elsewhere so they can participate in a competitive softball program. This makes it extremely difficult for MSM to field a competitive team.

In order to help address this issue, we would ask that you please post the following information on your school's online calendar/news feed about an outstanding softball league in the greater Little Rock area. This gives parents the information needed to sign up if their daughters are interested in giving softball a try. There are programs available for girls four years of age and up. Registration is now open
