

# Reopening Plan

At IC, we understand the importance of educating the whole child: mind, body, and spirit. We are proud to offer in-person learning five days a week while following guidance from the Arkansas Departments of Health and Education, as well as the DOLR Superintendent's Office.

## Student safety is our priority:

- Temperature check will be taken daily
- All adults and students PK-8th grade are required to wear masks
- Social distancing will be practiced throughout the school
- Areas will be cleaned and sanitized throughout the day and after school

- After School Care program will be available
- Specialty classes will continue to be offered
- New outdoor areas and additional outdoor recess/learning times will be offered to all classes
